DETAILED ACTION

Title

1. The new title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 27-49 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 27-49 are objected to because the cartridge frame is not defined in the claims or specification. Appropriate correction is required.

Allowable Subject Matter

4. Claims 27-49 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. Claims 2-18 and 20-26 contain allowable subject matter.

Prior Art Made of Record

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sato et al. (JP62-134655A) and Shoji et al. (5,565,961) teach pertinent prior art.

Response to Arguments

6. Applicant's arguments with respect to claims 27-49 have been considered but are moot in view of the new ground(s) of rejection.
